DISABILITY RESOURCE CENTRE VERIFICATION OF DISABILITY FORM

This applicant is requesting disability-related supports and accommodations while studying at the University of British Columbia Okanagan. The student is required to provide documentation that is:

- Issued by a licensed healthcare professional, unrelated by birth or marriage, who is qualified in the appropriate specialty and qualified to diagnose the disability or condition for which accommodations are being sought.
- Be sufficiently comprehensive to establish clear evidence of the substantial impact on the student’s functioning in an academic setting.
- Be sufficient to establish a direct link between the underlying impairment and the requested accommodation(s).

Note: A diagnosis alone does not automatically mean that a disability-related accommodation is required.

The provision of all reasonable accommodations and services is assessed based on the current impact of the disability on academic performance. Generally this means that a diagnostic evaluation has been completed within the last year.

The following pages are to be completed by a physician or other regulated healthcare practitioner.

Please answer all questions. Please print clearly.
